

ACCOUNTING IN POLAND

Our accounting office specializes in providing **comprehensive accounting services in Poland** – including for limited liability companies, partnerships, and entities exceeding the statutory revenue threshold.

We combine the experience and knowledge of our experts with modern solutions, such as digital document workflow fully compliant with Polish regulations, ensuring a safe and transparent accounting process. We guarantee comprehensive support and reliable accounting services.

SCOPE OF OUR ACCOUNTING SERVICES

We provide services across all key areas of accounting and taxation:

- **Monthly bookkeeping** – maintaining general ledgers, recording expenses and revenues, and performing account reconciliations.
- **Financial reporting and analysis** – preparation of statutory financial statements, management reports, and tailored summaries to support decision-making.
- **Tax compliance** – preparation and submission of tax returns (CIT-8, CIT-10Z, VAT, VAT-UE, JPK_VAT), management of minimum and equalization taxes, and documentation for WHT.
- **Expense management and payment processing** – handling operating expenses and preparing payments based on recorded transactions.
- **Statutory financial reporting** – preparing financial statements in compliance with legal requirements and accounting standards.
