

TECHNOLOGY THAT SUPPORTS BUSINESS

getsix® E-SERVICES

getsix® CUSTOMER BI & REPORTING PORTAL

getsix® Customer BI and Reporting Portal is an advanced analytical tool that enables companies to analyze detailed reports. Using Power BI technology, it supports informed decision-making by providing clear and up-to-date insights.

Due to the complexity of the service, the getsix® Customer BI and Reporting Portal solution is divided into two types:

- INTERACTIVE REPORTS PORTAL

- PDF REPORTS BY EMAIL

To meet the needs of our clients, we have prepared standard reports based on accounting data, which are most frequently requested by them. This solution reduces the costs of implementation and customization of reports, while ensuring quick access to key information.

WHY SHOULD YOU CHOOSE getsix® CUSTOMER BI AND REPORTING PORTAL?

FAST IMPLEMENTATION - 24H

Access to reports within 1 business day after payment in the subscription model.

LIMITED COSTS

Clients using our solution do not need to invest in Power BI licenses or engage specialists for its implementation – everything is provided as part of our service.

START WITH READY-MADE REPORTS AND VISUALIZATIONS

You don't waste time building reports from scratch – you get a ready set of useful, proven, intuitive, and clear reports that are available immediately after system launch.

SIMPLICITY WITHOUT COMPROMISE

You don't have to be a BI specialist – our solution is intuitive and user-friendly. Even people without technical background will quickly find their way in the reporting environment and will be able to work effectively with data.

SCALABILITY AND DEVELOPMENT

The solution is ready for development – you can add or remove new reports, modules, or data sources over time, without having to build everything from scratch.

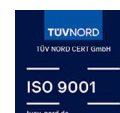

DATA GOVERNANCE

Our solution ensures compliance with data governance principles – data is organized, secure, and accessible only to authorized users.
